

## Product Ingredients

### Carma Car Wash Concentrate

Octyl Polyglucose	Derived from coconut oil esters and corn. Produces a very environmentally and user friendly surfactant and emulsifier.
Cocoamidopropyl betaine	Based on coconut fatty alcohols, this is a mild, high foaming surfactant with excellent cleansing properties.
Lauryl Alcohol Ethoxylate	Lauryl alcohol is produced from coconut or palm oil. A very gentle surfactant cleaner and grease emulsifier.
Cocomide MEA	Based on coconut oil, this non-ionic, mild foam stabiliser is an effective thickening and cleansing agent.
Sodium Hydroxymethyl Glycinate	Gentle preservative derived from glycine, or aminoacetic acid - a naturally occurring amino acid. Commonly sourced from sugar or soy.
EDTA	Ethylenediaminetetraacetic acid - disodium salt. Prepared from acetic acid (obtained from distillation of wood), this is an extraordinarily effective antioxidant and stabiliser. Efficient as a preservative and essential in small quantities to maintain colour and consistency qualities.
