

Product Ingredients

Sensu Sport Low Alcohol Anti-perspirant

| | |
|---------------------------------------|---|
| Ethyl Alcohol | Natural alcohol obtained from sugar cane. An evaporative solvent, carrier and solubiliser |
| Aluminium Chlorohydrate | |
| Caprylic/capric/linoleic triglyceride | |
| Triethyl citrate | |
| Dimethicone Copolyol | A silicone polymer. Silica is sourced from sands. This variety of use produces a result suitable for skin conditioners, lubricant but non-greasy. |
| Cyclomethicone | Silicone polymer sourced from silica, from sands. This produces an excellent skin conditioning, emollient lubricant. Non-greasy, it reduces friction and is highly skin protective. |
| Calcium pantothenate | |
| Hydrolised Sweet Almond Protein | |
| Extract of Echinacea Angustifolia | |
| Extract of Calendula | |
| Fragrance | All fragrances are exclusive blends based on natural floral and herbal extracts. Some blending with perfume compounds is necessary in some products for balance and stability. |
| Menthyl Lactate | |
| Chitosan | |
| Tocopheryl Acetate | Natural Vitamin E, from wheat germ or soy bean. Anti-inflammatory, emollient, moisturiser and anti-oxidant properties. |
| Glycolic acid | AHA |
